Environment Policy

OUR COMMITMENT

At Ecomove we are committed to managing our operations in a way that is environmentally sustainable and economically feasible. As a responsible business we will endeavour to comply with all applicable environmental legal and other requirements that apply to our activities, products and services.

We will ensure the availability of necessary resources to implement, maintain and enhance our Environmental Management System in order to deliver continual improvement in our environmental performance.

POLICY SCOPE

This policy applies to activities including and associated with the provision of battery recovery and disposal services to its client base.

OUR OBJECTIVES

Ecomove, subject to sound business practice and economic practicality, is committed to establishing and achieving the following environmental objectives:

- Preventing pollution of air, land and water by using the best available techniques
- Not use air travel to deal with UK mainland business
- Where feasible utilise mass transport, rail to conduct site visits
- Choose the shortest travel route where land transport is used
- Reducing consumption of fuel, water and energy wherever possible
- Identifying and reducing waste streams arising from our processes and disposing of waste in a way that minimises harm to the environment
- Using renewable or recyclable resources wherever possible
- Providing awareness training/information
- Appointing contractors and suppliers who match our environmental commitment and assist us in meeting our targets
- Considering environmental issues when making new investments and disposing of assets
- Developing and testing procedures to deal with environmental impact
- Considering and respecting our neighbours when managing our activities
- Setting, monitoring and reviewing our environmental targets

POLICY CONTROL AND REVIEW

Copies of this policy are made available to all clients and associates and is held at our office location.

This policy is also available upon request to suppliers, visitors and any other interested parties.

Ecomove is not required by law to utilise a formal Environmental Management System therefore this policy document will be regularly reviewed to ensure, wherever practicable to do so, improvements in technology or the needs of the company are addressed to ensure that as low as reasonably possible ‘carbon footprint’ is maintained.
