Health & Safety Policy Statement

Recover is unequivocally dedicated to prioritizing and enhancing the health and safety of its employees and all individuals affected by its operations. Our steadfast commitment to a robust Health and Safety framework underscores our unwavering dedication to compliance with relevant legislation and requirements.

A proactive approach is integral to fostering a positive health and safety culture that actively minimizes risks to life, property, and equipment. We set and monitor Health and Safety objectives, fostering a culture of continuous improvement and compliance.

Our Health and Safety objectives include:

1. Prioritizing the health and well-being of staff, making safety the foremost consideration in the working environment.
2. Providing comprehensive information, instruction, training, and supervision to ensure our staff can work safely and effectively.
3. Implementing an effective and proportionate risk management framework for the adoption of risk assessments and procedures.
4. Upholding the highest standards of quality in all operational facets through structured and integrated audits.
5. Cultivating and enhancing a positive health and safety culture throughout the business, actively involving employees in development and implementation processes.

Through these dedicated commitments, Recover strives not only to meet but exceed industry standards, ensuring a workplace that is safe, healthy, and compliant.
