Vape Recycling Bins

20L VAPE DROP BRANDED BIN

Designed for 500-750 vapes, these 20L bins must be emptied monthly and kept indoors.

Each bin features a top opening for easy, hassle-free disposal, making them perfect for public spaces where vapers can responsibly dispose of their devices.

These bins can also be branded, allowing our customers to share their message and promote responsible vaping practices

30L UN-APPROVED BARREL BIN + VERMICULITE

These bins are UN-approved and ADR-recommended for storing used vapes over medium to long durations.

Used vapes, when placed inside these barrels with Vermiculite, a fire retardant, remain neutralized. These barrels can be stored both indoors and outdoors.

60L UN-APPROVED BARREL BIN + VERMICULITE

Our UN-Approved barrels are available in a larger 60L size, catering to businesses with higher volumes of used vapes. These barrels offer a cost-effective storage solution.
